SEE ATTACHMENT .

Winnie Yip  
Primary Examiner  
Art Unit: 3636

*Attachment*

Receipt is acknowledged of a request for continued examination (RCE) under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e) and a submission, filed on March 5, 2007.

The submission, however, is not fully responsive to the prior Office action because: **In a RCE application, all claims must be drawn to the invention as originally elected and in this case, applicant elected by original presentation as discussed in examiner's previous office action.** Applicant's amended claims 1 and 23 are directed to an invention that is independent or distinct from the invention originally claimed. The newly amended the claims 1 and 23 read on other embodiment which directly claims a tent comprising two multi-stage air composite filter systems. But, the original claims 1-19 read on the embodiment shown in Figure 5 which claim a tent comprising a single multi-stage air composite filter system only. The submission drawn to another non-elected invention is non-responsive (MPEP § 821.03). The newly presented claims 1-3, 5, 8-11, 21, and 23 are not readable on the originally presented invention.

In addition, notice, the claims 22-25 as previously presented on May 2, 2007 claimed two blowers in a single multi-stage system and were rejected under

Art Unit: 3636

35 U.S.C. 112 first paragraph in the last office letter mailed November 6, 2006.

Therefore, claims 22-25 of last amendment were not considered to direct to two multi-stage air composite filter systems as now amended. Therefore, the newly amended claims 1 and 23 are considered to direct to a tent comprising two multi-stage air composite filter systems as a new embodiment was not originally presented.

If applicant wishes to pursue other embodiments of the invention other than what was originally presented in the prior application, then a request for Divisional application filed under 37 CFR 1.53(b) should be filed.

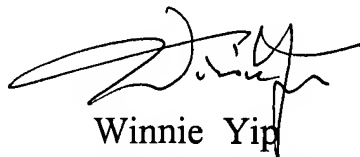

Since the submission appears to be a *bona fide* attempt to provide a complete reply to the prior Office action, applicant is given a shortened statutory period of **ONE MONTH or THIRTY DAYS** from the mailing date of this letter, whichever is longer, to submit a complete reply. This shortened statutory period for reply supersedes the time period set in the prior Office action. This time period may be extended pursuant to 37 CFR 1.136(a).

Art Unit: 3636

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Winnie Yip whose telephone number is 571-272-6870. The examiner can normally be reached on M-F (9:30-5:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Dunn can be reached on 571-272-6670. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
